Caregiver Self-Assessment Questionnaire

How are YOU?

Caregivers are often so concerned with caring for the relative’s needs that they lose sight of their own well-being. Please take just a moment to answer the following questions. Once you have answered the questions, turn the page to do a self-evaluation.

Self-Evaluation

To determine the score:

1. Reverse score questions 5 and 15.
   For example, a “No” response should be counted as a
   “Yes” and a “Yes” response should be counted as a
   “No.”

2. Total the number of “yes” responses.

To interpret the score

Chances are that you are experiencing a high degree of distress if any of the below is true:

- If you answered “Yes” to either or both questions 4 and 11
- If your total “Yes” scores = 10 or more
- If your score on question 17 is 6 or higher
- If your score on question 18 is 6 or higher

Next Steps

- Consider seeing a doctor for a check-up for yourself
- Consider having some relief from caregiving
  (Discuss with your healthcare provider or a social worker the resources available in your community.)
- Consider joining a support group
